Specifications

Tuner/Reception/Transmission
- Tuner bands: FM mono, MW, LW
- Station presets: 20
- Auto digital tuning
- Frequency range: (FM) 87.5-108 MHz

Connectivity
- Audio in (3.5mm)
- Antenna: FM antenna (75 ohm)

Convenience
- Display Type: LCD

Sound
- Sound System: Stereo
- Volume control: rotary (digital)

Loudspeakers
- Built-in speakers: 2

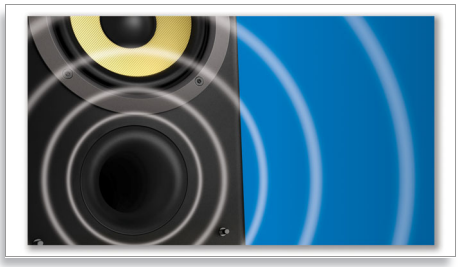
Power
- Power type: AC Input

Dimensions
- Product dimensions (WxDxH): 330 x 150 x 163 mm
- Packaging dimensions (WxDxH): 460 x 250 x 245 mm

Accessories
- Included accessories: AC power cord (VDE & UK), User Manual, Warranty certificate

Highlights

Bass Reflex Speaker System



Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

AUDIO-IN (3.5mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device to the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.
